Program Title:	Administration Support Specialist Level .5
Duration:	3 Months / 240 hours
Educational Credential:	Certificate of Completion
Methods of Instruction:	One-on-one instruction, classroom lecture, hands-on computer assisted lab

Training Overview

ProTRAIN will deliver computer and office skills training in a classroom environment to assist the client in obtaining the needed skills to be a competitive applicant in an entry-level position in an office setting.

Training will be broken up into classroom sessions covering computer basics, keyboarding and the basic understanding of Microsoft Windows, Word, Excel, Outlook, along with a basic understanding of customer service, communication, and other key business skills. Training will be held at ProTRAIN's computer lab and will be delivered in a combination of instructor-led and self-paced (assisted by an instructor) training.

Training will be three months, Monday-Thursday, five hours per day/20 hours per week.

Total Program Costs: \$4776

Course Topics

- **Computer Basics 101** Instruction includes the basics of current operating systems, working with files and folders, applications, keyboarding, and common and advanced customization tasks. This course includes discussion around "cloud" computing and the functions that can be performed. Keyboarding will also be further developed during the remaining training sessions.
- Microsoft Windows This course is designed for any worker, business professional or private individual who needs knowledge in operating systems and file management skills. Learners will explore its interface, identify the different components in the interface, customize the Windows desktop, manage files and folders, use the common tools and programs available and browse the Internet.
- Microsoft Word Beginning This course is intended for individuals who want to gain basic knowledge of working on Word.
- **Review #1 Computer Basics** This course will review topics covered in earlier in the training plan to encourage and aid retention of skills taught.
- **Microsoft Excel Beginning** This course is intended for an individual with little or no experience using Microsoft Excel or any other spreadsheet program.
- **Microsoft Outlook Beginning** Students will use Outlook to compose and send email, schedule appointments and meetings, manage contact information, schedule tasks, and create notes.
- **Career Planning and Readiness Skills** This portion of training will focus on preparing and polishing skills for the client returning to the workforce. This course will provide several topics to enable participants with an understanding of the impact of career planning, job searching, resume and cover letter writing, interview questions, and effective communication skills that can make it easier for them to succeed in the office and beyond.
